● FIRST MONTHLY RISE SINCE MARCH

India's fuel demand rebounds in June

PRESS TRUST OF INDIA
New Delhi, July 10

INDIA'S FUEL DEMAND rebounded in June after slumping to a nine-month low in the previous month as restrictions to curb the spread of the pandemic eased, helping economic activity and mobility to pick up.

Fuel consumption rose 1.5% to 16.33 million tonne in June from a year earlier and by 8% over May 2021, data from the Petroleum Planning and Analysis Cell (PPAC) Ministry of Petroleum and Natural Gas showed.

Petrol sales rose 5.6% year-on-year to 2.4 million tonne in June. It was up 21% from May sales of 1.99 million tonne. Diesel — the most used fuel in the country — rose 12% from May to 6.2 million tonne, but was down 1.5% from June 2020 and 18.8% from June 2019. This is the first monthly increase since March.

Fuel demand had recovered to near-normal levels in March before the onset of the second wave of Covid-19 infections led to the re-imposition of lock-

RECOVERY ON TRACK

- Fuel consumption rose 1.5% to 16.33 MT in June from a year earlier and by 8% over May 2021, showed data from PPAC
- Petrol sales rose 5.6% year-on-year to 2.4 MT in June
- Diesel rose 12% from May to 6.2 MT but was down 1.5% from June 2020
- Consumption of LPG rose 9.7% year on year to 2.26 MT. It was up 26.3% over June 2019

downs in different states, stalling mobility and muting economic activity.

Consumption in August slumped to its lowest since May last year amid lockdowns and restrictions in several states.

Fuel demand showed signs of resurgence in June after restrictions began to be eased and the economy gathered pace.

With Covid case addition continuing to decline and vaccination pace picking up, state

governments have continued to reopen, though some exceptions such as Maharashtra exist.

The then oil minister Dharmendra Pradhan had last month stated that India's fuel demand would recover to pre-pandemic levels by the end of 2021. "We are confident by the end of this calendar year we will be in a position to restore our original (pre-Covid) consumption behaviour," Pradhan said.

Consumption of LPG, the only fuel which showed growth even during the first lockdown because of free supplies by the government to the poor, rose 9.7% year on year to 2.26 million tonne. It was up 26.3% over June 2019.

With airlines yet to resume full-scale operations because of travel restrictions around the globe, jet fuel sales 2.58 million tonne was up 16.2% year on year but 61.7% lower than June of 2019. Naptha sales declined by about 3.9% to 1.19 million tonne while sales of bitumen — used for making roads — were down 32% at 5.09 million tonne. Fuel oil consumption rose 1.9% to 5.33 million tonne.
