

Our 2030 Goals

CUMI aims to achieve intensity reduction on the following parameters by 2030:

 **20%**
less energy

 **20%**
less water

 **25%**
less waste

 **25%**
less green house gas emissions

Let's Grow Responsibly – Together.

Please nominate a person from your entity, other than the procurement team, for sustainability-related communications and share their details at the email ID below.

Working Together for a Sustainable Future

**Building a Better Tomorrow,
Together** *(Clean. Responsible. Caring.)*

Our Commitment

At Carborundum Universal Limited (CUMI), we care about the environment, people, and responsible growth. We want every partner who works with us—suppliers, customers, contractors, and distributors—to join hands in keeping our operations safe, clean, and fair for everyone.

Why This Matters

Together we can:

Use natural resources wisely (like water, energy, and raw materials)

Reduce pollution and waste

Keep workplaces safe and healthy

Build trust and long-term business relationships

Protect our planet for the next generation

What We Expect from Our Partners

We request all our value chain partners to:

Follow environmental and safety laws and rules

Avoid wastage of materials, water, and energy

Provide safe, fair, and respectful workplaces for all employees

Reuse and recycle materials wherever possible

Be honest, transparent, and ethical in all dealings

Stay true to the spirit of the Murugappa Group values

How Will CUMI Support You

- 1 Share guidance and training on good environmental and safety practices
- 2 Work together on projects that benefit people and the planet
- 3 Share information openly and transparently
- 4 Create new ideas and improvements together
